SUMMARY

As a Front-End Web Developer with a passion for creating impactful projects, I possess a diverse skill set in **HTML, CSS, JavaScript, React, and RESTful APIs**. With proficiency in **crisis management** and **resource optimization**, I have successfully automated processes using **Google Apps Script** and leveraged various technologies to improve website performance and user experience. My background in **fostering strong relationships**, **collaborative team leadership**, **adaptability**, **effective coaching**, and **community building** complements my technical expertise, making me a valuable addition to any development team.

SKILLS

- **Front-End**: HTML, CSS, JavaScript, React, Gatsby, Vite
- **Testing**: Cypress
- **Automation**: Google Apps Script
- **CMS**: Contentful
- **Analytics:** Google Analytics
- **Version Control**: Git, Github

EXPERIENCE

Transformative Education Counselor My Friend's Place, Los Angeles, CA | 2019-Present

- Utilized **Google Apps Script** to automate data tracking, email communication, and calendar functionalities, resulting in improved accuracy and streamlined processes.
- Developed **crisis management** skills to efficiently organize and prioritize tasks, meeting tight deadlines during the fiscal year-end data organization.
- Collaborated with diverse teams and clients to identify and create actionable goals, establish clear expectations, and develop effective strategies to achieve desired outcomes.

Program Director One-Eighty Youth Programs, Lodi, CA | 2017-2019

- Transformed the organization's website using **Wix**, implementing SEO strategies and **Google Analytics**, and improving user engagement, leading to a 100% increase in website visits and social media followers.
- Collaborated with managers to maintain brand consistency on the website and social media platforms.
- Created a comfortable, safe, and fun atmosphere uniquely suitable for reaching varying demographics within the surrounding community, resulting in a 25% increase in program enrollment and retention.

Youth Director Cornerstone Church of Lodi, Lodi, CA | 2014-2017

- **Fostered strong relationships** with diverse groups of students and parents, demonstrating effective communication and empathy.
- Led a team of volunteers, **cultivating a supportive environment** that encouraged engagement and active participation in youth activities.
- **Adapted to evolving challenges** with creative solutions, adjusting strategies to meet the needs of individual participants and enhance overall program effectiveness.
- Provided **mentorship and guidance** to youth members, supporting their personal growth and development, honing my ability to understand and address individual needs.

PROJECTS

Recipes Website (Personal Project)

- Created a dynamic recipes website using **Gatsby** as the static site generator and **Contentful** as the CMS.
- Implemented **GraphQL** to query data and render a user-friendly interface.

Random Quote Generator and **Money Exchange Calculator Apps (Personal Projects)**

- Developed apps utilizing **RESTful APIs** to provide real-time data and user interactions.

Portfolio Page (Personal Project)

- Designed and hosted a portfolio page on **Netlify** and implemented **Cypress** for testing.

EDUCATION

- **freeCodeCamp** - Responsive Web Development & JavaScript Algorithms
- **William Jessup University**, Rocklin, CA - Graduated 2018 with a BA in Youth Ministry
